

# Harness Real-Time Alerts with ATAS Play's Notification Center

Stay ahead of the market with ATAS Play's fully configurable notification center, which delivers real-time alerts on volume spikes, price breaks, and custom script conditions. Receive pop-ups, email notifications, or mobile push messages to act on critical events instantly. Test alert logic in [ATAS Games](#) to ensure accuracy and refine thresholds without risking capital. When you've perfected your alert strategy, rely on ATAS Live to trigger precise orders the moment your conditions are met. Combined with dynamic charts and replay-testing, ATAS Play's alerts become a powerful signal generator that aligns with your unique approach. Turn on the flow of actionable insights: set up alerts in ATAS Play, validate in ATAS Games, and execute on ATAS Live without missing a beat.
